The screenshot shows a Java IDE's Run console. The title bar indicates the file is 'Main'. The console output shows the execution of a Java program that prints two sets of computer specifications. The first set is for an 'Asus ROG' with a size of 14, Intel Core i9 processor, red color, 8 GB RAM, and 2 TB hardisk. The second set is for a 'Lenovo' with a size of 13, Intel Core i3 processor, black color, 2 GB RAM, and 500 GB hardisk. The console concludes with 'Process finished with exit code 0'. The IDE's status bar at the bottom shows the time as 20:50, encoding as CRLF, and font settings as UTF-8 and 4 spaces.
